CASE# 2018-00021792

CASE REPORT

NARRATIVE

18-21792

Assault 4th Degree

Corporal I. Ouimet, #390

On 06/13/2018 at approximately 1539HRS, I was dispatched to Fairfax Hospital, located at 10200 NE 132nd Street for a disturbance/assault that was actively occurring. The caller advised that she was a nurse and needed Kirkland Police to respond, then abruptly hung up on the 911 call taker. We were unable to get a line back into the hospital.

On arrival, I contacted Hospital Intake Manager [REDACTED] who directed me to a North wing and just outside in a gated/secured area. I was advised that [REDACTED] was a patient at Fairfax and was here on a voluntary basis. There were no medical or court holds on [REDACTED] and that the hospital had accepted his voluntary intake due to his complaint of psychosis-related ailments. [REDACTED] had subsequently advised that he was no longer welcome at the hospital following his aggressive behavior and assaulting another patient.

[REDACTED] went on to explain that [REDACTED] was seen by staff aggressively approaching another patient at approximately 1522HRS. That other patient was later identified as [REDACTED] Non-Disclosure DOB [REDACTED] Non-Disclosure. [REDACTED] appeared agitated and briefly yelled at [REDACTED]. Within moments, [REDACTED] balled his right fist up and struck the left side of [REDACTED] face, effectively causing [REDACTED] to strike the wall with his head and stumble/fall to the ground. [REDACTED] then grabbed a nearby chair and began raising it up/pulling it away, but quickly stopped as staff intervened to stop further assault from occurring.

I was shown security footage of the incident which was consistent with showing [REDACTED] approaching another male in an aggressive manner. [REDACTED] appeared to have his fists balled, his shoulders back and he was attempting to make eye contact with the numerous staff and patients in the hallway. It was apparent he was walking in a manner that appeared agitated, frustrated, etc. [REDACTED] was then seen approaching a subject who is just out of frame of the security camera, saying something briefly to him, then proceeding to ball his first up and swing toward the upper portion of that person. Based on the victim's written statement and [REDACTED] statement, that victim was [REDACTED]. The security frame cuts off the impact of [REDACTED] fist with [REDACTED]. A copy of the security footage was obtained. The file was uploaded into KPD Records as an .AVI file. The original disc was entered into evidence.

[REDACTED] was contacted and stated that the punch caused pain and injury to his face. He had very minor redness near his lower left lip (further complaint of jaw pain) and stated that his face was still hurting him. [REDACTED] stated that he did not provoke or say much of anything to [REDACTED] nor attempt to assault or threaten [REDACTED] at any point. [REDACTED] does not previously know [REDACTED] other than in passing at the hospital. [REDACTED] stated [REDACTED] had approached him earlier and yelled if he ([REDACTED]) had "a problem with" him. [REDACTED] responded that he had no problem with him. Approximately one hour later, [REDACTED] re-approached [REDACTED] and apologized for yelling at him. The two hugged and went on their way. Thirty minutes later, [REDACTED] re-approached [REDACTED] and proceeded to punch him once in the face. [REDACTED] stated that he was caught completely off guard by the punch to his face.

CASE# 2018-00021792

CASE REPORT

NARRATIVE (continuation)

█████ was transported to Evergreen Hospital to check on the injury to his face. He further advised me that he wanted █████ charged with Assault for punching him. █████ provided a written statement detailing the incident.

I asked the medical staff and █████ about █████ and any information that could provide me. █████ advised that █████ was competent enough to understand his actions and would testify to this effect. She explained that █████ made multiple statements later re-iterating what he had done and that he would assault law enforcement if they tried to arrest him.

Contact was made with █████ who stated that █████ had disrespected him and admitted to threatening to assault him. When advised that it was unlawful to punch █████ in response to the disrespectful comments (whether they happened or not), █████ nodded in agreement. During our conversation █████ turned around on his own accord and put his hands behind his back, advising that we should just take him.

Based on the totality of the circumstances, and this investigation, I determined probable cause existed for the arrest of █████ for Assault 4th Degree. █████ was handcuffed, checked for proper fit and double locked for safety. █████ was then transported to SCORE Jail where he was booked on this charge. █████ was advised of his Miranda Warnings by Ofc. Thomsson and further transported to SCORE by this officer.

A statement was collected from █████ at Evergreen Hospital by Ofc. Cox, along with a voluntary medical release form. A copy of the superform was emailed to SCORE's Intake Officers along with a document containing medications that Fairfax wanted SCORE to have.
